Subject: EPA Request

Scott-

I did some checking and have learned our attorney didn't prepare an electronic log file per se (if I understand your request correctly). We will, however, be sending you a DVD containing scanned copies of all the documents submitted.

The documents sent to EPA were sometimes responsive to more than one Paragraph of the Request for information; in that case, the documents produced were assigned to the Paragraph we considered most applicable. The number following "CFAC" in the control numbering system reflects the Paragraph of the Information Request to which the document is believed to be responsive and pursuant to which the document is being produced; and the number following the colon indicates the production number of the documents within a particular Paragraph.

I hope this helps.
